SOURCE PROTECTION

Help keep our drinking water safe! Please read the label and/or do your research before disposing of household chemicals. Proper use and disposal helps keep potentially hazardous materials out of our drinking water.

CROSS CONNECTIONS

There are many connections to our water distribution system. When connections are properly installed and maintained, the concerns are very minimal. However, unapproved, and improper piping changes or connections can adversely affect not only the availability, but also the quality, of the water. Please do not make or allow improper connections at your homes.
